

## Link Building With Easy-CV.com

Posted on February 27, 2009 by [admin](#)

I've written a post before about [link building with your resume](#) and have found a lot of resources on the web to build on. I just noticed a newish site out there that is really well put together, and allows dofollow links. [Easy-CV.com](#) is the place I'm talking about and it's

100% free and web 2.0 styled and practiced. This site pretty much covers every aspect of a resume, and [link building](#) with it is just a perk really. The features are so plentiful I had to make a bulletin list!

The logo for easy-cv.com, featuring the text "easy-cv.com" in white on an orange background, with "my online resume" in smaller text below it.

- Dofollow links within your resume
- More than 200 templates to stylize your online resume
- The ability to publish via the web, pdf, word or video!
- Video resumes
- Your own subdomain for your resume
- Promotion through buttons, widgets, badges and their own Facebook App
- The entire site is multilingual
- FREE
